**Abstract.** Small business is a priority area of public policy and economic development. Favorable conditions for the development of small businesses are generated for this purpose currently in the country. However, success depends primarily on the level of vulnerability of the human factor in the process of small businesses formation. The process of labor management in a small business, which is formed due to natural circumstances, of organization' functioning, requires specific management decisions that are impossible to take without the constant monitoring and analysis. The article presents the results of the analysis of labor management system in small business in IP Klubnyj Dom «Nashe Mesto» (Individual Entrepreneur Club House OUR PLACE)

**Keywords:** small business; work; management; staff.
