Doctor of Economics, Professor, Head of Cathedra of Economic Theory
and Entrepreneurship in South-Russia Institute of Management –
branch of Russian Presidential Academy of National Economy and Public Administration
Rostov-na-Donu, Russia

Abstract. The article argues that to assess consolidation of society and to elaborate mechanisms of national security provision the methodological instruments of dialectics are necessary. It will allow to determine the measure and limits of human resources consolidation and reconsolidation, to find out its' essential difference from integration and reintegration of society.

Keywords: consolidation; reconsolidation; integration; reintegration; social interests; social preferences; human resources.

JEL code: O15.
